

Dear Plan-B Theatre:

Thank you for making the play "Squeak" available to view virtually. It was convenient to put it into my lesson planning when I was ready. I enjoyed the play, as much or more than my kindergarten students did.

I appreciate the study guide that gives teachers extended activities that the students can do, and questions the teachers can ask the students about the play.

I look forward to reading All About My Stripes with the class later this week, and having them fill out their own "stripes".

Students completed the writing page (linked in the teacher guide) for you to see what they enjoyed the most in the play.

I look forward to seeing what you have available next year.
